PROWLER Select Plus 160

Microcatheter

Balance between
Stability
and
Navigability
now
with **160cm Length**

오랜 기간 동안 Neuro Intervention Part에서 제품의 우수성을 입증 받아온 PROWLER M/C가 160cm Length를 새롭게 출시하게 되었습니다.

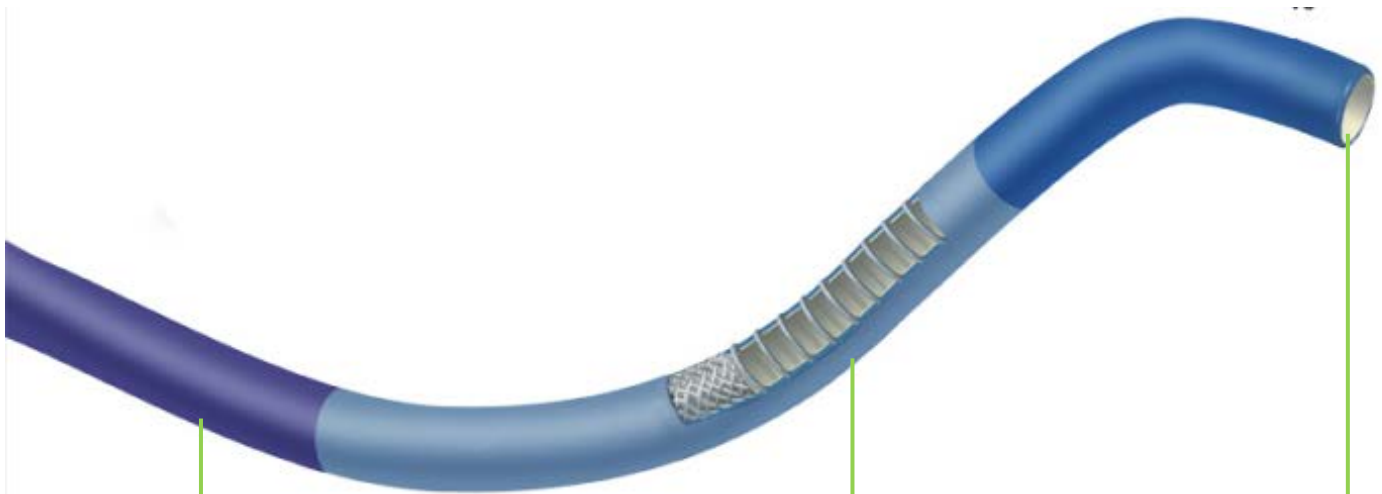

기존 M/C보다 10cm 더 길어진 PROWLER Select Plus 160 M/C는 Thrombectomy Case에 특화된 제품으로 PROWLER Line-up 에 있어 선택의 폭을 확장시켜 주었습니다.

Optimized Length for Thrombectomy

It's PROWLER Select Plus 160

이제부터 PROWLER Select Plus 160 M/C에 대한 소개를 시작하겠습니다.

PROWLER Microcatheter General Design

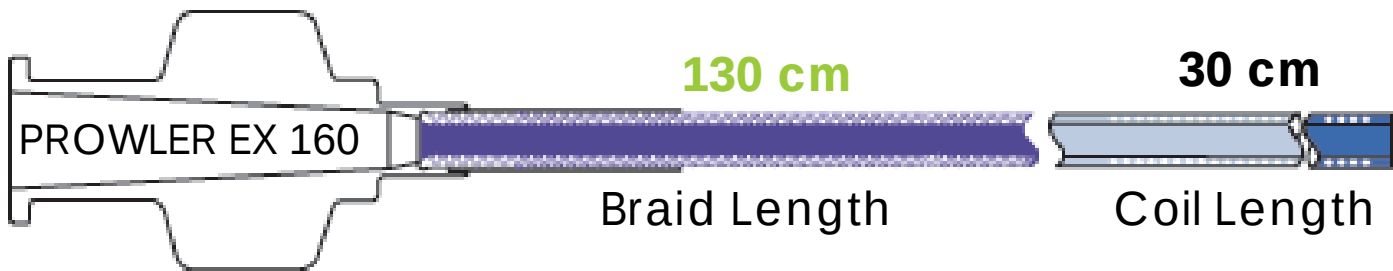

Varying
DUROMETERS for
catheter
support and
flexibility

Proprietary Braid /
Coil Construction:
Braid for STABILITY
Coil for TRACKABILITY

TRULUMEN®
Technology
provides a
consistent
INNER
DIAMETER

Optimized Longer 160 cm for Thrombectomy

Length	Braid	Coil	Distal tip
160 cm	130 cm	30 cm	5 cm

Trackability

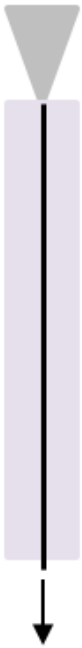

-Trust to **navigate tortuous anatomy**

-Available in **160 cm optimized length**

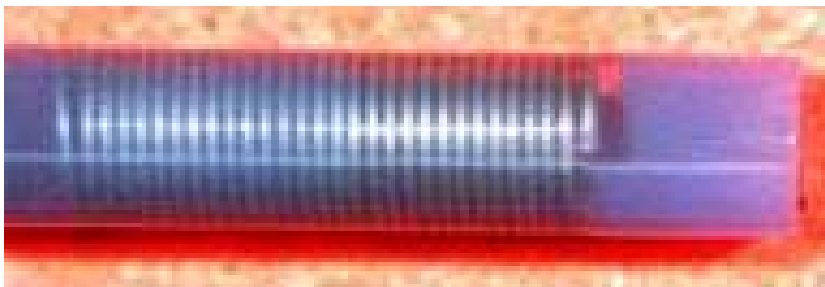

Easy Crossing

	Start	End
 Simulated SR Load		

-**Column Strength:** Amount of force required to buckle catheter

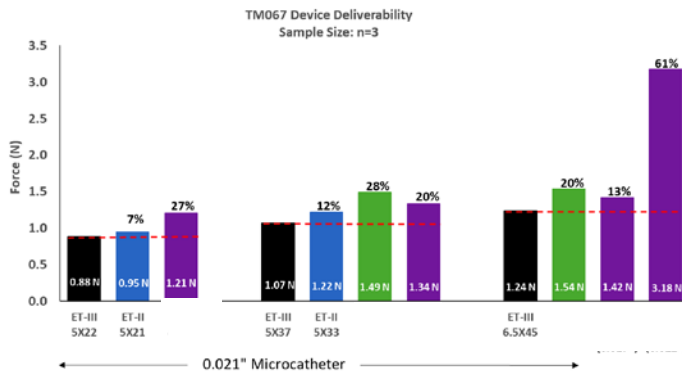

-Benchtop Testing demonstrates **Consistent OD and Column strength** to facilitate crossing of clot.
